Fire/Life Plan Review Fee (LM 60.855(2))

Fee applied when FLS review required by ORS 479.155 as authorized by OAR 918-460-0040 40% of Structural Permit Fee

Manufactured Dwelling and Park Model Permit Fees

Placement Permit Fee (LM 60.855(2))

Includes Plan Review, Electrical & Plumbing Connections \$439.80

Mobile Home and Recreation Parks

Manufactured Dwelling Parks (LM 60.855(5))

Valuation Per Table 2 of OAR 918-600
Fees 130% of the fees in OAR 918-600

Recreation Parks (LM 60.855(6))

Valuation Per Table 2 of OAR 918-650
Fees 130% of the fees in OAR 918-650

Other Building Permit Fees

Building Demolition Permit Fee (LM 60.855(2))

(Per structure) \$95.50

Swimming Pool Permit Fee (LM 60.855(2))

(Plumbing and/or Mechanical Extra) \$110.20

Solar Water Heating and Photovoltaic Electric Generators (LM 60.855(9))

Applicable building, plumbing and electrical permit fees assessed in accordance with the appropriate sections of LM60.855. LM60.855

Code Interpretation Conference Fee (LM 60.855(2))

Minimum fee \$62.00
Cost per hour \$62.00

Temporary Certificate of Occupancy

(LM 60.855(10)) 10% of Building Permit Fee

Phased Projects (LM 60.855(13))

Plan review fee for each phase of a phased project is \$95.00 plus 10 percent of the total project building permit fee not to exceed \$1,500 for each phase.

Deferred Plan Submittals (LM 60.855(13))

Fee for processing and reviewing deferred plan submittals is 65 percent of the building permit fee calculated from the Permit Fee Table of page 2 of this guide using the value of the particular deferred portion or portions of the project with a set minimum fee of \$95.00.

a. Private Garages use Utility, miscellaneous

b. Unfinished basements (all use groups) = \$15.00 per sq. ft.

c. For shell only buildings deduct 20 percent

d. N.P. = not permitted

* Carport, covered porch, patio, or deck use 50% of Private Garages

Brief Explanation of Construction Types: All buildings are classified according to their construction type. Type I is least combustible and Type V is most combustible. The difference in A or B for a given construction type is the level of fire resistance construction rating (A is "protected" and B is "unprotected"). Below is a description of each construction type.

Type I (IA or IB): Constructed of noncombustible materials (typically concrete frame buildings)

Type II (IIA or IIB): Constructed of noncombustible materials (typically masonry bearing walls with steel framing)

Type III (IIIA or IIIB): Exterior walls are of noncombustible materials and the interior building elements are of any material permitted by code (combustible or non-combustible)

Type IV: Heavy timber (HT) construction

Type V (VA or VB): Constructed of any materials allowed by code. Most residential construction in Lane County is Type VB

| \$100,001.00 and up | \$716.55 for the first \$100,000, plus \$3.90 for each additional \$1,000 or fraction thereof. |

Electrical Permit Fees (LM 60.855(8))

Residential (per unit, service included)

| | |
|--|----------|
| 1,000 sq. ft. or less | \$143.00 |
| Each add'l 500 sq. ft. or portion thereof | \$26.00 |
| Limited/restricted energy (wiring for doorbells, garage door opener and heating and air conditioning wiring covered by base fee for square footage above) | \$41.00 |
| Each manufactured home service or feeder | \$90.00 |

Services or Feeders

(installation, alterations, relocation)

| | |
|---|----------|
| 200 amps/5 kva or less | \$100.00 |
| 201 to 400 amps/5.01 to 15 kva | \$126.00 |
| 401 to 600 amps/15.01 kva to 25 kva | \$175.00 |
| 601 amps to 1,000 amps | \$276.00 |
| Over 1,000 amps or volts | \$556.00 |
| Reconnect only | \$82.00 |

Temporary Services or Feeders (installation, alteration, relocation)

| | |
|------------------------------------|---------------------------------------|
| 200 amps or less | \$82.00 |
| 201 amps to 400 amps | \$99.00 |
| 401 amps to 600 amps | \$162.00 |
| Over 600 amps or 1,000 volts | See Services or Feeders section above |

Branch Circuits

(new, alteration, extension per panel)

| | |
|--|---------|
| With purchase of service or feeder fee: | |
| Each branch circuit | \$7.00 |
| Without purchase of service or feeder fee: | |
| First branch circuit | \$76.00 |

** For the purposes of calculating the permit fees above, "fixtures" includes but are not limited to the following: Bathtubs, bidets, clothes washers, drinking fountains, laundry tubs, showers, sinks, urinals, water closets, water heaters.*

Additional Fees and Surcharges

The following fees and surcharges, while not levied by the Building or Electrical Programs, are applied to building and electrical permits and incorporated into the total permit fee to be collected at the time of permit issuance. As these can constitute a significant portion of your permit fees, a brief summary is included here in the Building & Electrical Program Fee schedule for your reference.

Surcharges and Fees Typically Applied to Building and Electrical Permits

State Surcharge (LM 60.855(12) and ORS 455.210, 220)

Calculated as a percentage of building permit fees or hourly fees in lieu of permit and is forwarded to the State of Oregon Building Codes Division..... 12%

Land Management Division Administrative Fee (LM60.850(8))

Calculated as a percentage of total permit fees, supports the activities of the LMD Administration Program. 15%

Long Range Planning Surcharge (LM60.850(9))

Calculated as a percentage of total permit fees, supports the activities of the Long Range Planning Program within LMD. 13%

Land Management Division Technology Assessment (LM 60.855(6))

Calculated as a percentage of total permit fees with an applicable maximum amount, revenue collected is utilized to implement technology improvements throughout the Division 10% w/
\$100 max

Construction Excise Tax

Applies to construction within certain school districts in Lane County. The Construction Excise Tax is assessed as a dollar rate per square foot of residential and/or non-residential construction which is collected by LMD and forwarded to the school district assessing the tax for capital improvement project funding. Rates vary among districts, contact LMD Administration or specific school district for more information.

Fee Collection

At the time a permit application for simple mechanical, plumbing or electrical scopes of work are taken in the total fee for the permit can be calculated based on the items listed on the application. This fee is collected in full at the time of application. However, the total fee for more complex permit applications (commercial structures, dwellings, accessory structures, etc.) that require land use, sanitation and other approvals can not necessarily be calculated at the time of application. For this reason, a permit intake fee is collected at the time of application in lieu of full fees. The permit intake fee is the sum of fees associated with foreseeable services that will be rendered in processing the permit prior to issuance. This includes fees associated with applicable plan check, addressing, planning review and approval, sanitation review and approval, as well as local surcharges on these amounts. Once the application is approved and all fees are known, the balance of the total fees will be owed. The balance will include fees for any review that was completed but not included in the intake fee, fees associated with inspection services to be rendered once the permit is issued, and applicable local and state surcharges.

Since the intake fee varies with each permit and is not known until your application is reviewed, please be prepared to pay the calculated amount at the time of application. You may reference the calculation sheet at the end of this guide to help you estimate the fees included in the permit intake fee and get a general assessment of the amount that will be owed at time you submit your application.

Estimating Your Building Permit Fees

LAND MANAGEMENT DIVISION 125 E 8th AVENUE, EUGENE OR 97401

1. Approximate Construction Cost of your Project

Use the higher of the quoted cost (provided by applicant) or calculated cost (using information below):

Current Costs per Square Foot for Typical Projects in Lane County (Wood Construction):

Standard Dwelling/Residential Addition = 97.95/sq. ft. Carport, covered porch, patio or deck = \$18.74/ sq. ft.
Garage, Shop, Shed = 37.47/sq. ft. Alterations and remodels = Quoted Cost from Applicant

Current Cost Per Sq. Ft. using Table on Page 2 of Permit Fee Guide:

Each Area's Current Cost per sq. ft. based on Use and Construction Type x Area (Sq. ft.) = Valuation Subtotal

Area 1: Use: _____ & Const. Type: _____ Cost Per Sq. Ft. _____ x Square Feet _____ = Valuation Subtotal _____

Area 2: Use: _____ & Const. Type: _____ Cost Per Sq. Ft. _____ x Square Feet _____ = Valuation Subtotal _____
